

Panasonic's JS930 Workstation... the new benchmark in POS reliability & performance.

Panasonic's JS930 Workstation features all of the quality and performance you have come to expect from one of the industry's leading suppliers of Point of Sale (POS) systems. The newly designed JS930 Workstation offers an open platform, making it easier than ever to integrate and create your own POS solution.

Designed to Withstand the Harshest Environments

- The Panasonic® JS930 Workstation is protected by a durable plastic enclosure with all system components mounted to a welded steel frame.
- Spill-resistant, removable 15" LCD display with replaceable Mylar cover.
- Innovative cooling system prevents exposure of sensitive electronic components to harmful contaminants.
- Optional internal uninterrupted power supply (UPS) ensures smooth system shutdown and recovery in the event of a sudden power loss.
- Modular design features user replaceable LCD, and easily accessible hard disk drive (HDD) and UPS battery for easy maintenance when needed.

Flexibility, Speed and Style

- In-store marketing is easier than ever with the built-in point-of-purchase (POP) display which can be customized to promote special menu items without sacrificing valuable counter space.

- Achieve increased order speed and accuracy thanks to the easy-to-read, adjustable 15" LCD display. The dual back light, high resolution and high contrast of the LCD display ensures crystal clear images.
- Even the tightest front counter space can accommodate the small footprint of the JS930 Workstation. The "all-in-one" design eliminates the clutter of additional hardware under the counter.
- Upgrading to the JS930 Workstation is easy with an open platform that accommodates whatever software you run today and into the future.

High-Tech Performance

- Featuring a 2.0 GHz processor, the Panasonic JS930 Workstation delivers high-speed performance to keep up with the latest software and your busy operations.
- Expanded memory capability (max. 2 GB) exceeds future requirements for next generation software.
- Convenient LAN connectivity via Ethernet 10 BaseT/100 BaseTX.

Specifications	
Processor	Intel Celeron 2.0 GHz
Memory (DIMM)	Shipped with a minimum of 256 MB or larger
HDD	Shipped with a minimum of 20 GB or larger
LAN	Ethernet 10 BaseT/100 BaseTX
Display	
Type	TFT 1024 x 768 (XGA)
Size	15"
Touch Panel	Resistive
Ports	
Serial	4 ports
Parallel	1 port
USB (2.0)	4 ports
2nd VGA	1 port
PCI Slot	1 slot (low profile)
PS/2	1 port
Drawer	2 ports
Supported Operating Systems	Microsoft MS-DOS 6.22 Microsoft Windows 98 SE/2000/XP/XPe
Dimensions (mm)	W: Footprint 11.61", Display unit 14.33" D: 13.42", H: 15.86" (with rubber foot)
Weight	22.7 lbs
Options	
Magnetic Card Reader (Track 1&2 KB)	JS930MGK12
Display Protection Sheet	JS930DS020
Battery for UPS	JS930BTU10
Cash Drawer	JS750CD
Rear Display	JS930RD010
